PERSONAL STATEMENT

Hi! My name is Alexandra Csátári - Alexandra means "defend" and Csátári means "striker".

The meaning of these two words describes my personality quite well and the way I work as a designer. I have a great passion for helping people and I'm keen to make a positive impact through design, raise awareness of important issues and tell stories that matter. I believe that with the power of design opinions and behaviors can be changed for good.

HOBBIES

I like to start my days by reading the news (politics, design, science). I also like to listen to podcasts and explore new music. I consider myself a curious person. I'm eager to explore new places and try new things in my freetime.
